DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. **Claims 1-21 and 27-42**, drawn to a combination of elements for calculating the position and orientation of an object, classified in class 382, subclass 287.
 - II. **Claims 22-25**, drawn to markers, classified in class 33, subclass 666.
 - III. **Claims 26**, drawn to probe, classified in class 73, subclass 661.
2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the details of the markers in **claim 22** and the probe in **claim 26** are not recited in **claim 1**, for example, one of the broadest combination claims. The subcombination has separate utility such as the use of markers for the sole purpose of identification rather than position and orientation, and the use of a probe for testing or sensing an object.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Thomas Spinelli on 12/06/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
